What are your five tips for women in business?

- Be seriously strategic™. Prepare and be present, intently listen, observe, learn and ask questions as opportunities, solutions and your next client or career move are often hiding in plain sight.
- 'No' should never be a first, second or third option. When you go the extra mile, it is less traveled and will result in more recognition and value.
- 3. It's just not what you say, but how you say it that determines success. In today's rapid e-mail, text and sound-bite world, it is even more challenging to stand out, effectively engage and encourage collaboration and buy-in, so choose your words, approach and style wisely.
- 4. Just because someone says so, doesn't make it so. Today with self-publishing and online courses, anyone can be a self-proclaimed expert, journalist, webinar maven, opinion leader or do-it-yourself proponent so never take claims, advice or referrals purely at face value. Dig deeper; ask about track record and experience, do research, challenge and check references before engaged in both business and personal life.
- 5. No more 'handshake' deals, get everything in writing.

What Inspires you?

- A challenge. I am energized when participating or leading client 'think tanks' to help create and navigate game-changing solutions, launching new brands and revitalizing and re-inventing others.
- Learning something new ...which is why I
 love the industry I am in! With each new
 client we explore and engage in new industries, pursue new audiences and maximize
 relationship-making.
- Reading biographies on government, business and thought leaders and successful family legacies that share their challenges, opportunities and wisdom, the

'how' and 'why' of their decision-making and the impact their successes and failures have had on their careers, communities and family life.

What do you do on a day off?

What's that? Even on a day off, I am invigorated and inspired by the world around me and always thinking how I can integrate what I have experienced (from conversations, new relationships made to a new skill or venue/destination visited) to enhance or benefit my business, my clients' businesses, personal enrichment and family life. A day of pampering is always is in order.

What are some things that people don't know about you?

THE COLES

Casey and I co-founded *NKCGH* in 2008 in memory and in honor of our father, the legendary musician and vocalist Nat King Cole, as a response to the nationwide budget cuts to schools' arts programs. Our non-profit organization provides music education to children with the greatest needs and fewest resources. Funds raised provide musical instruments and equipment, programs, mentoring and scholarships to local government funded, Title 1 schools and community organizations. Our outreach in Florida is Palm Beach, Okeechobee, Broward and Dade Counties, and New York, with plans to expand nationwide.

One of our programs is *Nat King Cole Generation Hope Summer Strings at Lynn University* which provides funds for a week long summer camp giving elementary students without means an opportunity to receive the highest quality string instruction and private lessons with Lynn conservatory students serving as their mentors and Palm Beach County School District's music teachers serving as their directors. This June will mark its 5th year in operation.

Our vision is that Nat King Cole's unforgettable legacy, and now Natalie's as well, ensures that future generations are given the opportunity to learn and experience the joy of music and the art of creative expression in their lives.
